

I strongly urge you to reject NAB petition #04-160. XM Satellite Radio is providing a great service by offering excellent quality and variety not found anywhere else as well as an invaluable service by providing instant traffic and weather information. For those willing and able to pay for this convenience, it should not be up to the NAB to dictate whether we are allowed access to this programming. We have waited a long time for XM Instant Traffic & Weather without the constant commercial interruptions and wait-time of regular radio programming; please don't allow the NAB to stop it.
Thank you.
